REACH

The official & exclusive newspapers at the world's biggest bicycle industry shows. Reach premium international contacts and maximise your show investment.

MEDIA MIX

Impress visitors with your ads in a high quality editorial environment and use the circulation of both print and e-paper issues to reach your target group.

CONTENT

Our editors and photographers report on exhibitors, innovations, products, and events, making the Show Dailies a "must read" at the show.

ABOUT THE SHOW DAILY

The official trade fair newspaper

Since 2008, the Show Daily has been the only official daily newspaper at Eurobike - the world's leading trade fair for the bicycle industry. With the addition of the Taipei Cycle Show Daily in 2010, we provide an advertising package that reaches key buyers at the most important events. Print has a lasting quality that other channels can't match. The Show Dailies are read not only by visitors but by media at the show and by industry executives who could not attend the show in person.

DAILY UPDATES

Our editorial team constantly keeps you up-to-date with innovations, product news, event details. The pages that change daily provide space for onsite editorial news.

EDITORIAL QUALITY

Product news, fair events and a daily photo gallery - our editors provide the right journalistic setting for your ads.

New Products 2018

Bosch eBike Systems Kiox

An onboard computer, the Kiox's compact and robust color display is controlled by a separate unit on the handlebar and provides the user with data on speed, personal performance, and battery charge status. The high-resolution display is readable even in direct sunlight, while robust gorilla glass protects against scratching and other damage. **AG-2017202**

Ortlieb Commuter-Bag Two Urban

The Commuter-Bag combines urban design with waterproof function. Its polyurethane coated Cordura blend is a perfect match to a business or casual look. A buckled flap allows quick access to the main compartment and is adjustable in height while being fixed with two metallic buckles. The internal organizer stows

by.schulz G.2 Suspension Seatpost

Building on the popular G.1 Urban post, among other changes the G.2 uses IGUS polymer bearings and features an improved seat clamp. Available in many different sizes, the LT model has a longer suspension travel of 50 mm. The easily exchangeable spring element is available in five different stiffnesses, allowing it to be tailored to user weight or style of riding. **CS-300**

Xpedo Arrow

It's a road pedal with adjustable Q-Factor. Allowing you to vary the distance to the pedal center from 53 to 58 mm, this far outstrips what would be possible with conventional spacers. An innovative design separates pedal body and axle sleeve into two individual components. A scale on pedal body allows riders to find their own distance easily. **AA-100**

Elastic Interface MTB Trail

The first MTB pad with a multidirectional curvature. Developed for male anatomy with a central channel improving blood flow and reducing pressure and numbness, in the ischiatic area it's reinforced with a Hybrid Cell System protection insert. Sporting smooth edges to all its foams, the pad provides great saddle stability, while the Air Mapping concept enhances breathability. **AP-210**

KTM Macina Ride 291

Integration is king for this casual eMTB. Its completely new frame design employs hydroforming, drop forging, CNC processing, and gravity casting along with a high-level plastic injection molding cover to create a sleek and appealing look. All while neatly accommodating the bike's powerful Active Line Plus Engine and Bosch Power Pack. **AS-210**

Sate-Lite LF-08 light

A compact and USB rechargeable front light. The Sate-Lite LF-08 provides 300 lumens of illumination activated by a user-friendly on-off button design. Its anti-glare optical lens stops it dazzling oncoming traffic while an IPX5 waterproof rating means it's ready for all weather conditions. A low power indicator and side windows with yellow light round out the design. **LS-217**
